- A rapidly growing user base with 100's of existing and signed-up customers

Why Yavrio

- Experts in Banking + Fintech
- Global open banking coverage
- Comprehensive payment solutions
- Effortless implementation & elite user experience
- Robust security and FCA compliant
- Savings from Day 1

A great addition for Business Central

"Yavrio has been a great addition to Business Central; it's integration with our bank ensures that bank reconciliations can be produced instantly and accurately. Any differences are easier to spot compared with manual reconciliation processes"

A great solution for bank connectivity

"Yavrio was really easy to set up and use. The functionality of live bank feeds and making payments straight from Business Central is really convenient."

A must have for any Business Central implementation

"Easy to install and setup, and affordable. Makes banks recs in BC a walk in the park and payments even easier. Highly recommended!"

Perfect for Banking in Business Central

"Very simple to set up and use. The direct feeds make bank recs and payments so much easier and streamline the processes! Highly recommended."

Yavrio Solution Overview

International Payments

- ✓ Single Payments
- ✓ Bulk Payments
- ✓ Bulk Multicurrency Payments
- ✓ Direct connection to SWIFT network

Enhanced Functionality

- ✓ Live & Competitive Exchange Rates
- ✓ Spot FX
- ✓ Vendor Account Validation

Embedded Multi-Rail Payments

Faster Payments:

- Faster Payments enables transactions to be completed swiftly, typically in less than 2 hours.
- Currently, Faster Payments serve as our default payment rail within Business Central. For new users connecting banks via Yavrio, enabling open banking may be required.

BACS Payments:

- BACS (Banker's Automated Clearing Services) revolutionises bulk payments integration.
- Obtaining a SUN (service user number) from the bank institution is necessary. We'll take it and register it with our Bureau partner and integrate it into Business Central.

International Payments:

- Yavrio International Payments Solution can support multi-currency payments to over 260 countries and territories in 150 currencies.
- By clicking a designated button within Business Central, it will generate a live rate contract lasting between 60 to 90 seconds.
